Notice of 30-Day Public Comment Period – Coastal Area Facilities Review Act (CAFRA) Individual Permit (IP)

South Jersey Gas Company

Grassy Sound Crossing Project

Right-of-Way of Old North Wildwood Boulevard / Cape May County Route 665

Middle Township, Cape May County, New Jersey

NJDEP File No. 0506-19-0018.1 LUP190001

Dear Interested Party:

This letter is to provide you with legal notification that an application for a CAFRA individual permit and Waterfront Development individual permit has been submitted to the New Jersey Department of Environmental Protection, Division of Land Use Regulation for the development shown on the enclosed plan. A brief description of the proposed project follows:

The proposed project consists of a crossing of the Grassy Sound Channel via Horizontal Directional Drilling (HDD) below the existing right-of-way (ROW) of Old North Wildwood Boulevard / Cape May County Route 665 for the installation of a 12-inch diameter natural gas pipeline replacing an existing pipe. The proposed project will provide existing South Jersey Gas customers in the area with a more efficient utility service. The HDD installation method allows for minimal aboveground disturbance and greatly decreases the potential of significant adverse impact to nearby natural resources.

The complete permit application package can be reviewed at either the municipal clerk's office or by appointment at the Department's Trenton, NJ office. A public comment period will commence on **December 18, 2019** and will continue for thirty (30) calendar days. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments to:
